Although surface indications are dulet, efforts are still being made to win over enough insurgent votes to send Mr. Sheehan to Washington. "Wait until Wednesday," was the word to-night, but just what Wednesday will bring forth is problematical.

The legislators are beginning to take the daily ballot as a matter of course, and the deadlock shows no signs of a break. To-day's ballot was a perfunctory affair with only forty-tight homebers, present. Another ballot will be taken to metrow, but no changes are expected and fewer members probably will attend.

Ashhurst was born in Naples in 1828, while his parents were on a visit there. He was a graduate of the University of Pennsylvania of the class of 1856, and was admitted to the bar in 1859. Looks Blue for Peary.

Washington D. C. February 3.—Censideration of the Senate bill promoting Captain Robert E. Peary to be a reariant admiral in the navy, was indefinitely livestponed in the House to-day, because of the illness of Representative Bates, of Pennsylvania, who has the measure in charge. When the bill was passed over on the private calendar, Representative Mann, of Illinois, served notice that the matter, "In all human probability," never would be reached again this session. He declared that the public calendar was closged with important legislation, the next private calendar day is two weeks away, and, according to precedent, always is dispensed with at that late date in a short session.

Mr. Mann endeavored to call up the bill himself, so as to permit Representative Macon, of Arkansas, to deliver an address he has prepared on the Peary matter, and in opposition to the proposed reward to be explorer. In was appealed to by friends of Mr. Bates, and withdrew his motion.

Mr. Macon succeeded in getting recognition on another bill, but when he announced that he proposed to say a few things about Mr. Peary, a point of order was made against him and gustained by the Speaker.

[Special to The Times-Dispatch.]

Norfolk, Va., February 3.—Two sessions of the court of inquiry in the probing of the Coast Artillery conditions in Norfolk and Portsmouth were held to-day, and the examination of the officers of the various companies was continued. Strict silence has been enjoined on all members of the court and on all witnesses called. With remarkable obedience these orders are being observed, much to the disgust of the newspaper men, anxious for something definite to show the trend of the investigation.

There is but one hope of some one talking, and that is that the line of examination shall make some witness angry and cause him to talk. This is confidently expected to happen, even before the hearing is completed. Absolutely nothing is being given out by the court members or its recorder.

Chief of Police Fatally Injured. Thousands Search for Murderer.

Wilson, N. C., February 3 .- The greatest excitement in the history of this place was caused to-day by the cold-blooded murder of Deputy Sheriff George Munford and the probably fatal shooting of Chief of Police A. O Glover by an unknown negro desperado, whom the officers were trying to arrest.

This morning the officials here were notified to look out for negroes who broke in a store at Dunn last night and stole several pistols and other merchandise. This afternoon one of the negroes was located in a negro house near the Norfolk Southern Railroad yards, and the officers went there to make the arrest. Deputy Munford and Chief Glover went to the front door, and Policemen Warren and Wynne stood guard at the rear. As Munford and Glover entered the front door, the negro opened fire. Munford was shot through the head, and Glover through both lungs. The former died in less than an hour, and the latter i diately upon seeing the officers fail tioned at the rear could run around to the front the negro darted out of the front door and escaped. Bloodhounds were brought here on

a special train and are now following the trail. Posses in automobiles, in buggles and on foot are scouring the nearby country, and the military come pany, reinforced by hundreds of citi-zens, is on duty picketing the roads to prevent the negro's escape from the territory in which he is supposed to be hiding. Several arrests were made, but par-

les who witnessed the shooting exonerated the prisoners. Feeling is running high, and excitement is intense. Over 1,000 armed mer

are scouring this section of the country, and should the negro be captured lynching would cause little surprise

ers of General Bonilla's forces for the people, arranging, if possible, an armistice, assuring them in that case of the impartial good offices of the United States in offering mediation to prevent further useless bloodshed.
